

Revolutionizing AI with MAI Cloud™

CSE: AICO

FSE: 99L

OTC: AICOF

“AI will impact every industry on Earth,
reshaping the nature of work, ethics, and our very
understanding of intelligence itself.”

Sundar Pichai, CEO of Google

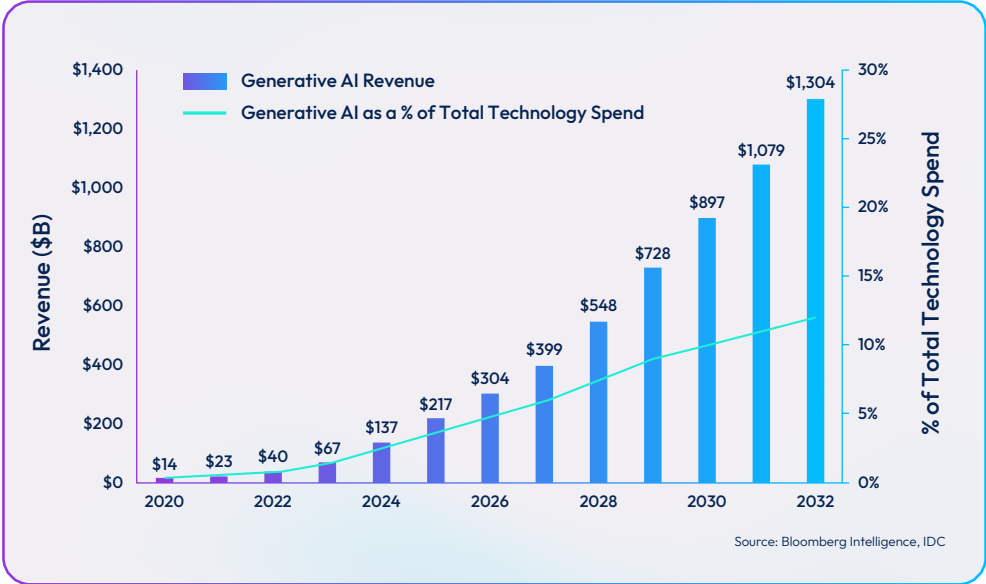

\$1.3 TRILLION MARKET BY 2032

With the influx of consumer generative AI programs like Google's Bard and OpenAI's ChatGPT, the generative AI market is poised to explode, **growing to \$1.3 trillion over the next 10 years** from a market size of just \$40 billion in 2022

The largest drivers of incremental revenue will be generative AI infrastructure as a service, **generating \$247 billion by 2032**

THE OPPURTUNITY

AI infrastructure as a service (AlaaS)

AI infrastructure as a service (AlaaS) companies provide cloud-based platforms and services for integrating and deploying artificial intelligence solutions

Key Benefits

- ① **Focus on Innovation:** By outsourcing AI infrastructure, companies can focus more on innovation and developing their core products and services.
- ② **Cost Efficiency:** AlaaS enables companies to access powerful computing resources without the significant upfront costs of building their own infrastructure.
- ③ **Flexibility and Scalability:** AlaaS provides flexibility and scalability, allowing businesses to expand their AI capabilities as needed without large capital expenditures.

Global AI as a Service Market

Size, by Service Type, 2023-2032 (USD Billion)

The Market will Grow
At the CAGR of:

39.6%

The forecasted market
size for 2032 is USD:

\$168.2Bn

High-Performance Computing

Our proprietary MAI Cloud™ service is a culmination of advanced computing capabilities integrated seamlessly into a cloud-based solution. Enabling unprecedented access to high-performance computing, MAI Cloud™ provides computational power exactly when and where it is needed.

- ⦿ Security as a Priority
- ⦿ High-Performance Computing
- ⦿ Designed for AI
